

Machinist I

Job Description:

N2 Imaging Systems, an industry leader in the design and manufacture of advanced infrared imaging components and systems, is looking for a highly motivated individual to join our team. The successful candidate must have the ability to operate CNC Mills and Lathes during production runs. Must be a self-starter who pays attention to detail and accuracy, taking responsibility for his/her work.

Specific job tasks include:

- Operate CNC Mills and Lathes to run CNC programs.
- Change offsets as needed to ensure parts meet drawing tolerances
- Check parts to prints or solid models to ensure part meets quality requirements.
- Run established CMM programs for part verification
- This is a 2nd shift position (2:30 pm to 11:00 pm)

Required Skills include:

- Ability to operate CNC Mills and Lathes.
- CAD/CAM skills (Pro E, MasterCam) and Zeiss CMM experience a plus
- Can be trained if familiar with a CAD/CAM system other than Master Cam or Zeiss CMM.
- Must have the ability to work with others in a fast-changing environment.

Education/Experience:

- High School Diploma or equivalent.
- Minimum of 3 years' experience in this field.
- Ability to operate CNC Mills and Lathes.
- CAD/CAM skills (Pro E, MasterCam) and Zeiss CMM experience a plus
- Can be trained if familiar with a CAD/CAM system other than Master Cam or Zeiss CMM.
- Ability to multi-task and prioritize.
- Ability to work independently as well as a team player.
- Able to read basic written instructions and follow verbal instructions.
- Quick learner with strong attention to detail
- Must have the ability to work with others in a fast-changing environment.

There is no relocation allowance available for this position. N2 Imaging Systems is an equal opportunity employer committed to a diverse workforce.

Candidate must be a U.S. Person (U.S Citizen or Permanent Resident).
